

## DOCUMENTATION UPDATE

Solana® Barcode Cards

Effective Date: 2018MAY14

May 14, 2018

Dear Valued Customer,

Our records indicate that you have received one or more products from the Solana product line within the past year. This letter is to inform you that the control barcode cards in the Solana products have undergone a change in format. In addition, the product reference number (REF) is now displayed on the card. The cards are now plastic instead of paper.

This is a permanent change that you will see on all barcode cards, effective immediately. Please note that the change is cosmetic only. For your reference, the images below illustrate the differences between the previous format and the new format:

### Previous barcode cards

### New barcode cards
