Section 1 - Product and Company Identification

1.1 Manufacturer Information
Quidel Corporation
10165 McKellar Court
San Diego, CA 92121
Phone: 1-800-874-1517
Web: www.quidel.com
Fax: 1-858-453-4338
E-mail: gehs@quidel.com

1.2 Product Information
Product Name: Normal Human Serum Complement (Catalog #: A112/A113)
Recommended Use: Human Serum Complement is intended for use expressly in experiments to assess levels of in vitro complement activation or complement cytotoxicity. It has been characterized in the Quidel Complement Activation Assays for level of Bb, C4d, C3a, iC3b, and TCC as well as for total CH50.
Components: 2.5 – 5.0 mL vials (typically frozen)

Section 2 – Hazards Identification

2.1 Emergency Overview
This material should be handled as potentially containing infectious materials – Follow Universal Precautions.

Significant health effects are not anticipated from routine use of this material when following Universal Precautions and general safety laboratory practices. None of the components listed within this kit are considered hazardous as defined by the Occupational Safety and Health Administration (OSHA), the Canadian Workplace Materials Information System (WHMIS), or the European Union (EU) Directives.

When working with this product we always recommend that employees wear appropriate personal protective equipment (PPE), including gloves, a lab coat and eye protection, and follow good laboratory hygiene practices to avoid any and all accidental exposure to workplace materials. Universal Precautions should be followed when working with any potentially infectious material.
