QuickStart Guide

Study the User Manual thoroughly before using the QuickStart Guide. The User Manual can be accessed online at quidel.com/sofia2. A hard copy may also be provided upon request.

CUSTOMER SERVICE
If Sofia 2 does not perform as expected, contact Quidel Technical Support 800.874.1517 (in the U.S.), 858.552.1100 (outside the U.S.), technicalsupport@quidel.com or your local distributor.
UNPACK SOFIA 2

- Inspect the shipping container for obvious shipping damage prior to opening.
- Unpack the shipping container and inspect the unit for damage.

CONNECT TO POWER AND TURN ON

Place Sofia 2 on the counter top within reach of an electrical outlet. The unit is portable and can be moved to a suitable location for testing.

1. Plug the Power Adapter into the power port on the rear panel of Sofia 2 and appropriate electrical outlet.

2. Turn Sofia 2 on using the power switch located on the rear panel. A Power On Self-Test screen will appear on the front display when Sofia 2 is turned on.
CALIBRATION CHECK

- Enter the default Supervisor ID of 1234.
- Remove Calibration Cassette from the pouch.
- Press to advance to the next screen.

Following the prompts, insert the Calibration Cassette into Sofia 2 and gently close the drawer. Sofia 2 will perform the Calibration Check automatically.

The Sofia 2 display will indicate when the Calibration Check is completed.

**NOTE:** If Calibration Check cannot be completed successfully, notify the on-site Supervisor or contact Quidel Technical Support for assistance.

Once calibration is complete, remove and return Calibration Cassette to the storage pouch.

**Important:** Store the Calibration Cassette in the provided storage pouch between uses. Avoid touching the read window on the Calibration Cassette.

*Run QC according to assay specific Package Insert.*
