INTENDED USE
The Solana HSV 1+2/VZV Control Set is intended to be used as full process controls in the Solana HSV1+2/VZV Assay. This unassayed control set for in vitro diagnostic use consists of a highly purified plasmid DNA mix of HSV-1, HSV-2 and VZV plasmids. The negative control is HSV-1, HSV-2 and VZV free matrix.

INSTRUCTIONS FOR USE
The Solana HSV 1+2/VZV controls should be used at the same volume as unknown samples with the Solana HSV 1+2/VZV Assay.

WARNINGS AND PRECAUTIONS

- Treat all specimens, samples and controls as potentially infectious. Follow universal precautions when handling samples, this kit, and its contents.
- Avoid contact with skin and eyes.
- Use micropipettes with an aerosol barrier or positive displacement tips for all procedures.
- Avoid microbial and cross contamination of the kit reagents. Follow Good Laboratory Procedures.
- Controls contain 0.09% Sodium Azide. Do not empty these controls into drains. Dispose of the containers in a safe way.
- Proper sample collection, storage, and transport are essential for correct results.¹
- Store assay reagents as indicated on their individual labels.
- Testing should be performed in an area with adequate ventilation.
- Dispose of containers and unused contents in accordance with Federal, State and Local regulatory requirements.
- Wear suitable protective clothing, gloves, and eye/face protection when handling the contents of this kit.
- Wash hands thoroughly after handling.
- For additional information on hazard symbols, safety, handling and disposal of the components within this kit, please refer to the Safety Data Sheet (SDS) located at quidel.com.
STORAGE AND HANDLING OF KIT REAGENTS
Store the kit at 2°C to 8°C until the expiration date listed on the labels.

QUALITY CONTROL
The Solana HSV 1+2/VZV Control Set can be used for quality control testing. Each laboratory should establish their own frequency of QC testing based on applicable local laws, regulations and standard good laboratory practice.

LIMITATIONS
- For in vitro diagnostic use.
- This control has been studied using a molecular testing methodology; it is not intended for use with other methodologies.

CUSTOMER AND TECHNICAL SUPPORT
To place an order or for technical support, please contact a Quidel Representative at 800.874.1517 (in the U.S.) or 858.552.1100 (outside the U.S.), Monday through Friday, from 8:00 a.m. to 5:00 p.m., Eastern Time. Orders may also be placed by fax at 740.592.9820. For e-mail support, contact customerservice@quidel.com or technicalsupport@quidel.com.

For services outside the U.S., please contact your local distributor. Additional information about Quidel, our products, and our distributors can be found on our website quidel.com.
