

DOCUMENTATION UPDATE

Quidel® DHI Cell Culture Product Labels

REF: All Cell Culture Products

March 14, 2019

Quidel is constantly striving to improve our products based on customer feedback and satisfaction. This communication is to announce that Quidel is currently validating a revision to all product labelling, which will improve the clarity of product identification, reduce ink smears, and improve the overall durability of the label.

Please be advised that the implementation of the new and improved product labels will appear on our DHI Cell Culture products in the coming months. Below are examples of these changes, current appearance on the left, new format on the right.

Glass Round Tubes (GRT)

Shell Vials (SV)

Multi-Well Plates (MWP)

Please feel free to contact Technical Support at technicalsupport@quidel.com or by calling 800.874.1517, with any questions or concerns that you may have regarding this issue.

Sincerely,

Lauren Grippa
Manager, Technical Support
