Nasal/Nasopharyngeal Swab Procedure

1. Collect nasal or nasopharyngeal specimen
2. Add 1-3 drops of specimen to test well
3. Mix well

*Look closely! This is a positive result. Even if you see a very faint, pink Test Line and a blue Control Line, you must report the results as POSITIVE. The positive test line is usually very prominent, but test line intensity can vary.*

A = Influenza A Test Line
C = Control Line
B = Influenza B Test Line
