

HBSS
(without Ca^{++} or Mg^{++})

QUIDEL

Buffered salt solution containing multiple inorganic salts, glucose and phenol red for use in cell culture techniques.

FOR *IN VITRO* DIAGNOSTIC USE

DESCRIPTION

One bottle containing 100 mL (REF: 10-120100) or 500 mL (REF: 10-120500) buffered salt solution containing multiple inorganic salts, glucose and phenol red for use in cell culture techniques. The solution has been tested for sterility.

WARNINGS AND PRECAUTIONS

- General purpose laboratory reagent.
- Use undiluted.
- May be an eye, skin or respiratory irritant.
For eye exposure, rinse with water for several minutes. For skin exposure, wash with soap and water. For respiratory difficulties, remove to fresh air. Seek medical attention if any condition persists.
- Testing should be performed in an area with adequate ventilation.
- Dispose of containers and unused contents in accordance with Federal, State and Local regulatory requirements.
- Wear suitable protective clothing, gloves, and eye/face protection when handling the contents of this kit.
- Wash hands thoroughly after handling.
- For additional information on hazard symbols, safety, handling and disposal of the components within this kit, please refer to the Safety Data Sheet (SDS) located at quidel.com.

STORAGE

Reagent will retain its full potency through the expiration date when stored at 15°C to 30°C.

ASSISTANCE

To place an order or for technical support, please contact a Quidel Representative at 800.874.1517 (in the U.S.) or 858.552.1100 (outside the U.S.), Monday through Friday, from 8:00 a.m. to 5:00 p.m., Eastern Time. Orders may also be placed by fax at (740) 592-9820. For e-mail support contact customerservice@quidel.com or technicalsupport@quidel.com.

For services outside the U.S., please contact your local distributor. Additional information about Quidel, our products, and our distributors can be found on our website quidel.com.
